

THE "PINTO" PRESS.

Nixon of the Silver State thus pays his respects to the gold bug press, now endeavoring to obtain a foothold in this State.

The Hawthorne Bulletin in its last issue, assailed Senator Jones and the Silver party in a scurrilous article a column in length, which was copied by the Reno Gazette Thursday. In the closing paragraph the editor of the Silver State was referred to in a very familiar manner, which we fear might lead those who read the article to imagine that we are well acquainted with the editor of the Bulletin, and in that way injure our reputation as an average citizen, if the same was not refuted and branded as an untruth. The only acquaintance we remember of having with him, except merely a speaking acquaintance, was before the last Convention of the Silver party, when the gentleman in question wrote us a letter asking for our support in his behalf for the nomination of state printer. So much for Mr. Bulletin.

Now for old "hopity-go-limpity" of the Gazette, who was not satisfied with the Bulletin article as it stood, but had to make special mention of the section which referred to us. We will say that it is much better for an editor's head to be "bald" on the outside than on the inside, as his is. We will say further that when we get ready to come before the people of Nevada for public office we will not ask for the nomination from the Bulletin, Gazette or any of their breed. In fact, we today consider it the highest recommendation a public man can have to receive the abuse of such "pinto" papers as those two are, and ask the pardon of our readers for deigning to notice them.

A MINISTER'S STRONG WORDS

The Rev. Irl R. Hicks in Word and Works, in discussing the condition of the United States Treasury, says:

We have asked leading bankers what they thought of the gold farce that is being played upon the United States Treasury—farce upon the Treasury, but tragedy upon the toiling millions—and all agree that it is "the biggest bunko game ever played in the world's history." And yet the power and united wisdom of this Government is unable to cope with the little band of shysters, thieves and scoundrels who are deliberately playing this game. The thought is nauseating. The day is not far off when all the secrets of this damnable business will be laid bare, and when a long-suffering, outraged people will take to themselves short cuts and quick methods of reckoning with their oppressors. When that day comes our "wise" and "conservative" legislators will declare that "the revolutionary element" has brought about the violence, disruption and ruin. So be it. The awful disease calls for "heroic treatment."

THE SUFFRAGE AMENDMENT.

Yesterday the House voted no on the woman suffrage amendment. The APPEAL regrets that the proposition was not allowed to go before the people. No good reason can be assigned for not allowing women to vote.

It is a rank imposition that a foreigner who pays no taxes, has more right in Government affairs than a native born American woman who has property rights and who is bearing children to develop the country.

It would have been good politics for the Silver party to have taken the initial step in giving women the ballot. We trust the Constitutional Convention will take a more reasonable view of the case.

Which is the Cheaper.

The Carson papers are working very hard to get the Legislature to pass the Keeley cure bill. If the State undertakes to cure all the old whisky-soaked bums, the rest of us will have to go to the poor house. The scheme is a good one for the Keeley cure people, but a very bad one for the taxpayers. It should be killed in its infancy.—Independent.

To cure a man of drunkenness costs \$130. To support him in idleness costs more than that each year. To punish him for crimes committed while drunk, often costs thousands and tens of thousands.

If the Independent will think a little it will realize that no better bill was ever before the Legislature. Other States have tried the same legislation and are well satisfied with it.

The California Legislature has appropriated \$185,000 for State Military purposes.

Loquacious People.

A Nevada exchange has the following, which applies equally well to other places besides the one spoken of: "This place can not be beat anywhere for loquacious people. It matters not what occurs the news is spread over the town faster than it could be transmitted by telegraph. They know everybody's business but their own, and they would know that if they had any to know."

U. S. Senator Teller thus struck the bed-rock of the silver question:

"If we had a President who would take twelve men in a room—twelve who are known and recognized in financial circles—and say to them: 'Gentlemen, the Government will make its payments in silver. Now, if you want a panic have it, there would be no panic. The run on gold would stop in an hour.'"

That is solid and incontrovertible truth. In fact, all this metal money trouble would vanish the moment federal revenues were raised by an issue for treasury notes "redeemable" in taxes and government service, especially if the latter were extended to telegraphs and railroads.
